		Y		N	
Work Camp (town)	Name Of Person Who Did The Pre-Site	Repair Work		New Construction	

Directions to the Clients Home

Use Street Names, Landmarks, Anything That Will Help The Work Team Find The House

Work To Be Completed

Give Detailed Instructions Of Work
Attach A Picture Of The House If Possible

Tips For Pre Site Visits: Thank the client for allowing you into their home and explain U.M. ARMY to them. Remember to never promise the client we can do the requested repairs. Tell them that we will do our best to help them and that someone will contact them to let them know if we will be returning and when. This visit is not a guarantee that work will be done. Explain that it is high school and adult volunteers, not professionals and the scope of work we can accomplish is limited. Let them know we cannot do plumbing, electrical, major home repairs or new room construction.
